Dear Sir

Please SUPPORT the data center in Decatur Township. Lifelong multi generational township resident. Been living here since 1959. Build it! It's the best thing for us. It beats 300 new cheap houses. Seems as if that's all our Civic Council pushes is cheap houses. Oh wait, when you have a realtor with a voice on the Civic Council... Guess you get houses! Also, and most important, the Civiv Council was responsible for and voted unanimously to zone this property the way it is zoned!! Enough said. And the loons that are vocally opposed to this project, with their signs and protests, are just that. Loons. Constantly bashing Josh Bain, he's a good man and has nothing to do with this. Total idiots. None of them have lived here for generations. They can move. Please approve this and let's move forward. Approve this please!

Best regards
